OPTIONS & IDEAS

The web links are “live” and by clicking on CNTRL + left-mouse, it will take you to the information

- **Minors** are to support your major. For example, perhaps you want to open a private practice in Psychology; will a minor in Marketing or Management support your endeavors the best?
- **Double Minoring** – Sometimes a student will choose two minors to help support their focus.
- **Double Majoring** – Sometimes a student will want to double major in something in order to add to the support of what they want to do upon graduation. A double major often extends the degree by about a year and eliminates the need for a minor.
- **To declare a minor or double-major, click on the following link for the Declaration Form:**
