

Types of Careers offered by Xcel Energy for STEM Majors

Xcel Energy offers Electrical and Mechanical careers in Energy Supply, Distribution and Transmission and Technology Engineering in Information Technology.

Xcel Energy Internships

Xcel Energy hires nearly 200 college interns across the 8 states we serve with about 80% in electrical or mechanical engineering. The other 20% are internships in IT, marketing, finance, accounting and human resources.

Xcel Energy internships are paid and are not for credit. Students may apply for internships between January and April of every year.
