Music Theory Placement

Important General Information

REQUIREMENTS:

• All students entering MSU Denver’s music theory sequence must take a Music Theory Placement Exam or take MUS 1010 Essential Music Theory Skills.

• Theory Lab I and Class Piano I are co-requisites for Music Theory I. For advanced theory levels, check specific degree programs for theory co-requisite requirements.

• Students must be eligible to take Theory I or higher in order to receive private instruction.

• Students who have completed MUS 1010 Essential Music Theory Skills with a grade of C- or lower must retake Essential Music Theory Skills or take the Theory Placement Exam.

EXAM SCHEDULING:

• The exam is administered on Audition Day or by special arrangement. Audition Days occur in January, April, and August. Please check the Music Department website for exact dates.

• Contact the Music office to register for the exam: 303-615-1010.

ADVANCED PLACEMENT:

• An advisor will help the student determine the appropriate level(s) of exam to take. (See next page)

WHAT TO EXPECT:

• Plan to arrive at least 15 minutes prior to the exam with pencil and eraser in hand.

• Exam results will be emailed the week following the exam.

Music Theory Readiness Assessment:
What You Need to Know to Pass the Theory I Placement Exam

Written exam:

☐ Identify and notate major key signatures on the staff
☐ Identify and notate minor key signatures on the staff
☐ Identify and notate various intervals, i.e., P4, m3, m7, A6, etc.
☐ Know time signatures/rhythmic note values
   • Including beat divisions and counting syllables
☐ Identify and notate major scales on the staff
☐ Identify and notate all forms of minor scales, i.e., natural, harmonic, and melodic
☐ Identify and notate all forms of triads, i.e., major, minor, augmented, and diminished
☐ Identify and notate all inversions of triads, i.e., root position, first inversion, second inversion

Ear training/Sightsinging exam:

☐ Intervals (size and quality)
☐ Rhythmic dictation
☐ Melodic dictation
☐ Triads
☐ Sightsing simple diatonic melody

If the placement exam is not passed, the student must register for MUS 1010 Essential Music Theory Skills and must drop Music Theory I and all Theory I co-requisites (Theory Lab I and Class Piano I).
