BIOLOGY EVALUATION GUIDELINES FOR TENURE AND PROMOTION TO ASSOCIATE PROFESSOR

TENURE CANDIDATES SHOULD WRITE A NARRATIVE THAT CLEARLY EXPLAINS THEIR ROLE AS A FACULTY MEMBER. ALTHOUGH LISTED AS THREE SEPARATE AREAS OF EVALUATION, TEACHING, SCHOLARLY ACTIVITIES AND SERVICE OFTEN INTERACT AND INTEGRATE WITHIN A FACULTY MEMBER’S RESPONSIBILITIES. WHEN POSSIBLE, THIS INTERPLAY SHOULD BE DISCUSSED IN THE PORTFOLIO NARRATIVE ALONG WITH HOW THE FACULTY MEMBER HAS GROWN THROUGH THEIR PROBATIONARY PERIOD.

EVALUATION STANDARDS FOR TEACHING

Teaching is the act of creating and maintaining an environment which enhances the opportunities for student learning and discipline-related growth; it includes advising students to facilitate graduation and to transition to post baccalaureate careers or further educational opportunities.

Effective teachers display knowledge of their subject matters in the relevant learning environment (classroom, on-line, hybrid, field work, etc.), which typically includes the skills, competencies, and knowledge in a specific subject area in which the faculty member has received advanced experience, training, or education.

GUIDELINE TO ACHIEVE TENURE: IN THEIR NARRATIVE, TENURE CANDIDATES MUST EXPLAIN THEIR APPROACH TO TEACHING FROM AMONG THE FOLLOWING ASPECTS OF TEACHING: HOW THEY 1. INTEGRATE THEIR SCHOLARLY ACTIVITIES AND KNOWLEDGE INTO THEIR TEACHING, 2. DESIGN THEIR COURSES, 3. DELIVER MATERIAL TO FACILITATE STUDENT LEARNING, AND 4. USE ASSESSMENT RESULTS TO IMPROVE THEIR COURSES. THE FACULTY MEMBER ALSO DISCUSSES STUDENT ADVISING, LINKING IT WITH THEIR COURSES, SCHOLARLY ACTIVITIES AND PROFESSIONAL SERVICE, AS APPROPRIATE. TENURE CANDIDATES SHOULD REFLECT ON THEIR GROWTH IN TEACHING THROUGH THE PROBATIONARY PERIOD. THE FACULTY MEMBER HAS SRI’S USING THE APPROVED FORM FOR ALL ACADEMIC YEAR CLASSES WITH 5 OR MORE STUDENTS. A SINGLE SUMMATIVE PEER OBSERVATION IS ALSO REQUIRED FOR EVALUATION FOR TENURE.

| Needs Improvement: This rating simply means the faculty member has not accomplished all of the necessary activities to | The tenure candidate does not perform at the level of “Meets Standards” for teaching as described below. |
attain the “Meets Standards” rating.

Specific examples of “Meets Standards” in teaching for the tenure candidate:

1- Courses are kept current and new materials are added to courses, such as adoption of a new textbook, the preparation of new study guides, bibliography/reading lists for classes, or the development or substantial revisions to other handouts, demonstrations, laboratory activities or web sites; AND

2-Multiple approaches are used for students with different learning styles and special needs through the use of multimedia, the Access Center, and one-on-one meetings with students; AND

3- Provides students with timely qualitative and quantitative feedback to help the students master the material through creating assignment rubrics, specific and detailed learning objectives, clearly communicated expectations and assessment information in the course syllabi, and using assessments that require critical thinking/problem-solving skills on the part of the student; AND

4-Continued course improvement through either self-study, scholarly activities, or based on assessment results and student feedback; AND

5- SRI’s for “instructor’s contribution to the course” are generally (80% of sections) at or above 4.25. If below, the candidate has shown a trend of improvement and the narrative addresses
work toward increasing SRI’s through shifting instructional content and/or design and/or delivery and incorporating feedback from student commentary; AND

6-Probationary faculty members will have at least two of their courses evaluated by peer observers each semester (excluding summer) for the first two years. Then they will have at least one course evaluated each semester for the remainder of the probationary period. Peer observers will be tenured biology faculty members chosen by the Department Chair (one will be the chair for the first two years) in consultation with the faculty member. Evaluations will be both summative and formative. For tenure and promotion probationary faculty members are expected to have a sustained record of peer evaluations that “meet standards”. Probationary faculty members are expected to have responded to any concerns and to have demonstrated improvement in areas that were identified as needing improvement; AND

7-Develops or revises curriculum by one or more of these activities: designing or substantially modifying laboratory exercises or course materials, designing or using new instructional equipment or methods, developing a new course (not previously taught) in the department, developing a new delivery format for a course (e.g. online), creating and offering an independent study, internship, or other individualized course, substantially modifying or redesigning an existing course, developing program modifications (e.g. curriculum modification forms for Biology program changes), developing a web site specifically for a course; AND

8- Advises students in the Biology major and minor as well as professional specialized areas for biology students (e.g. pre-health care careers and graduate programs), is available for advising through e-mail, telephone and in-person meetings during office hours, provides up-to-date and accurate advising information and/or actively seeks out answers to unknown advising issues or refers the student to the appropriate office/person, accurately interprets CAPP reports, and maintains records of advising sessions (e.g. in BRM); AND
If the tenure-candidate teaches General Studies courses, he/she designs and teaches his/her courses in accordance with the official course syllabus, meeting departmental and university expectations including the writing and student learning outcome expectations. Additionally, assessment activities must comply with departmental and university requirements.

**Scholarly Activities**

Scholarly and creative activities are disciplinary or interdisciplinary expressions or interpretations that develop ideas, frame questions, create new forms of representation, solve problems, or explore enduring puzzles.

**GUIDELINE TO ACHIEVE TENURE:** TENURE CANDIDATE MUST DEMONSTRATE IN THEIR NARRATIVE AND ANOTATED RESUME THAT THEY HAVE MADE ONE OR MORE MAJOR CONTRIBUTIONS TO THEIR DISCIPLINE THAT HAVE BEEN PEER REVIEWED OR ACCEPTED BY A JURY.

DEPARTMENT OF BIOLOGY

EVALUATION STANDARDS FOR CATEGORY II & CATEGORY III FACULTY

Approved by the Biology Faculty, March 21, 2014 (vote: 16 For : 2 Against : 0 Abstain)

INTRODUCTION: Category II and Category III faculty (referred to as Affiliate) are subject to the norms and expectations of academic freedom befitting an institution of higher education. Furthermore, they serve as contingent faculty appointed for defined terms. Category II faculty are hired most often to teach full-time under contracts of a duration from between one and three years; Affiliate faculty are hired to teach on a per-credit-hour basis for specific classes, as needed, usually on a semester-by-semester basis. Category II faculty and Affiliate faculty are eligible for reappointment at the discretion of the Dean and Department Chair, respectively. Decisions to reappoint are based upon the needs of the department or program and also take into consideration the candidate’s qualifications and performance. Performance evaluation, therefore, is done in part to support reappointment decisions and in part to foster improvement among both Category II and Affiliate faculty members.

EVALUATION STANDARDS FOR TEACHING

Teaching is the act of creating and maintaining an environment which enhances the opportunities for student learning and discipline-related growth; it includes advising students to facilitate graduation and to transition to post baccalaureate careers or further educational opportunities.

Effective teachers display knowledge of their subject matters in the relevant learning environment (classroom, on-line, hybrid, field work, etc.), which typically includes the skills, competencies, and knowledge in a specific subject area in which the faculty member has received advanced experience, training, or education.

CATEGORY II: GUIDELINES FOR REAPPOINTMENT OR PROMOTION TO SENIOR LECTURER: In their one page narrative, the faculty member must explain how they have met expectations for assigned duties and responsibilities. It should present a reflective self-assessment that highlights accomplishments and indicates plans for the future and presents their best case for continuance in their position or promotion to senior lecturer if they are applying. The candidate should briefly describe their approach to teaching including how they: 1. Update their courses integrating current knowledge into their teaching, 2. Design their courses, 3. Deliver material to facilitate student learning, and 4. Use assessment results to improve their courses. The faculty member administers Student Ratings of Instruction (SRI’s) using the approved form per the Handbook for Professional Personnel. A single summative peer observation is required for their first year of employment as a Category II faculty. If a sufficient number of trained peer observers are not available, a departmental peer observation may be substituted for the
required summative observation. The Category II faculty member should provide documentation of the unavailability of trained peer observers in the portfolio. At least one departmental peer observation is required each year during the first three years of employment and one is required every three years thereafter.
