Firefox

This Connection is Untrusted
You have asked Firefox to connect securely to digitalmeasures.msu.edu, but we can't confirm that your connection is secure.

Normally, when you try to connect securely, sites will present trusted identification to prove that you are going to the right place. However, this site's identity can't be verified.

What Should I Do?
If you usually connect to this site without problems, this error could mean that someone is trying to impersonate the site, and you shouldn't continue.

Chrome

This is probably not the site you are looking for!

You attempted to reach digitalmeasures.mscd.edu, but instead you actually reached a server identifying itself as digitalmeasures.msudenver.edu. This may be caused by a misconfiguration on the server or by something more serious. An attacker on your network could be trying to get you to visit a fake (and potentially harmful) version of digitalmeasures.mscd.edu.

You should not proceed, especially if you have never seen this warning before for this site.
