Accessibility for Busy Faculty: Fall 2024

The Instructional Accessibility Group (IAG) in the CTLD is always working to help faculty create accessible courses while respecting their busy workload. Check out what's happening with the IAG!

Proactive Accessibility:

- **Quick Tips webpage:** Improve accessibility a few minutes at a time. https://bit.ly/IAG_Quick_Tips

- **More Step-by-step Accessibility Guides on our Website**

Training and Other Initiatives:

- **30-Minute Accessibility Bytes virtual workshops.**
  Every other week with more times: Mon/Tues 3pm; Weds/Thurs 9am. Topics include: Disability Etiquette, Canvas, Text Alternatives, Neurodiversity, Documents, Captions and Yuja, and Presentations. For topics, schedule, and registration: https://bit.ly/46p0Ih7

- **Proactive Accessibility Liaisons (PALs).**
  A small cohort of faculty meet throughout the term to work on proactive instructional accessibility. Each faculty member works on an individual project throughout the term. Stipend upon completion of final project.

- **Pilot PDF Remediation Service.**
  We are partnering with one department for Fall and hope to expand!

Continuing Services:

- **Access Checks and Course Reviews:** One-off assessment of a course material and a deeper audit across an entire course. We discuss possible next steps; however, remediation is instructor's responsibility.

- **Department Meeting Visits:** Let us share who we are and present a brief overview of our services and resources while opening communication lines with your department. Email us to schedule!
