

DEPARTMENT OF COMMUNICATION STUDIES

ABOUT US We provide our students contemporary course offerings and flexible degree programs that fit their schedules and meet them where they are. Our faculty come from around the world (and even MSU Denver) and are fully committed to providing diverse and inclusive learning environments. We ensure students are gaining advanced communication, critical thinking, problem solving, teamwork, and analytical skills and strategies they can take into the real world while staying on track for graduation.

STUDENT OPPORTUNITIES Our Department is committed to helping students develop their skills as communicators in order to thrive in their personal, professional, and public lives. Students can develop their skills by joining MSU Denver Debate which has gained local and national recognition for its work and offers international debate and cultural exchange opportunities or MSU Denver's chapter of Lambda Pi Eta (LPH), the National Communication Association's official honor society at four-year colleges and universities which offers networking events.

WHAT MAKES US SPECIAL MSU Denver is among the most affordable four-year universities in the nation. Not only do we offer a high quality education at a low cost, our Department offers flexible program options whether you want to be fully in-person or online or have a combination of the two, we have a program that's right for you. We also have unique resources like our Presentation Lab that delivers tailored, one-on-one personal and professional coaching that takes your talk to the next level.

ALUMNI QUOTE "My Communication [Studies] major provided me with new lenses and perspectives on how I better make sense of myself, culture, and society through recognizing the deep power and impact of communication; a tool often taken for granted."

Andrew Ortiz-Martinez,
MSU Denver '22, Communication Studies, B.A.
