Course Accessibility: Spring 2025

The Instructional Accessibility Group (IAG) in the CTLD is always working to help faculty create accessible courses while respecting their busy workload. Check out what's happening with the IAG!

Proactive Course Accessibility:

- **Quick Tips webpage:** Improve accessibility a few minutes at a time. https://bit.ly/IAG_Quick_Tips

- **More Step-by-step Accessibility Guides on our Website** https://bit.ly/IAG-MSUDenver

- **Review the MSU Denver Digital Accessibility Policy:** https://www.msudenver.edu/accessibility/

Spring Initiatives:

- **Proactive Accessibility Liaisons (PALs).** A small cohort of faculty working on instructional accessibility projects. Stipend upon completion of final project. https://bit.ly/PALs_IAG_MSUDenver

- **30-Minute Accessibility Bytes virtual workshops.** Every other week with more times: Mon/Tues 3pm; Weds/Thurs 9am. https://bit.ly/46p0Ih7

- **Pilot PDF Remediation Service.** Exclusive partnership with the English Department; also available to PALs alumni and faculty who requested course reviews.

Continuing Services:

- **Access Checks and Course Reviews:** One-off assessment of a course material and a deeper audit across an entire course. We discuss possible next steps; however, remediation is instructor's responsibility.

- **Department Meeting Visits:** Let us share who we are and present a brief overview of our services and resources while opening communication lines with your department. Email us to schedule!
